Hints for Students

- Allow enough time to use AskColorado. Finding good information could take a few minutes but may save time later.
- The librarian may be helping several people at once, so please be patient.
- Tell the librarian where you have already searched. This helps get you new information and resources.
- Ask for search tips. The librarian can help you become a better researcher, but they are not online to do your work for you.
- Let the librarian know your specific assignment. For example, do you need books, articles, or web sites?
- You are being helped by a real person, not a search engine. Please be polite.
- Try your own librarian. She/he can help you too!
